Bug Fixes	3

Linux Agent Release Notes

Version: 12.6.1

Release Date: 02.05.2024

Update and Improvements

- Reintroduced persistent classification on digitally signed PDF files.

Bug Fixes

- Resolved issue where 'Spirion Closed' appeared in the system search log before Spirion actually closes.
- Resolved issue where Linux agent Gather Data logs were not included in the zip file.
- Resolved issue where the Shred Value 'Delete Only' was not performing correctly.
- Resolved issue with "Shredding location failed, Unable to remove from directory" to Debug level to avoid confusion with Error log.
- Resolved issue where Manual Location Shred 'DOD Shred' was not respecting setting or pass count.
