Mac Agent Release Notes

Version: 12.6.1

Release Date: 02.05.2024

Update and Improvements

- Reintroduced persistent classification on digitally signed PDF files.

Bug Fixes

- Resolved issue where 'Spirion Closed' appeared in the system search log before Spirion actually closes.
- Resolved issue where the message "Shredding location failed, Unable to remove from directory" is assigned to Debug level to avoid confusion with Error log.
- Resolved issue where MAC Shred remediation : 'Delete Only', 'Fast Shred', 'Intense Shred' were not working correctly for 'Temp File' and 'Location' Shred options.
- Resolved issue where Mac 'Temp File Shred', 'Fast Shred', and 'Intense Shred' were not working correctly using the Default Policy from an SDP console only.
